A really cool dude, he's a whiz on roller blades with a great singing voice. He can't resist belting out a tune whenever there's a mike handy. Rock-N-Troll is never without his mirrored "rainbow" shades and sweat suit. He's real hip, knows the score and is always ready for a good time or a wild adventure.

He is fierce looking, but he's really gentle, large and loveable — a giant with a heart of gold. He protects the Trollies from harm and is a pushover for the Trollie Triplettes. Under his quiet exterior lies the mind of a true genius but you'd never know it by looking at him. Olaf is a very important member of the Trollie gang because he's always there when needed.

## Cherry Troll Trollie™

## Jelly Troll Trollie™

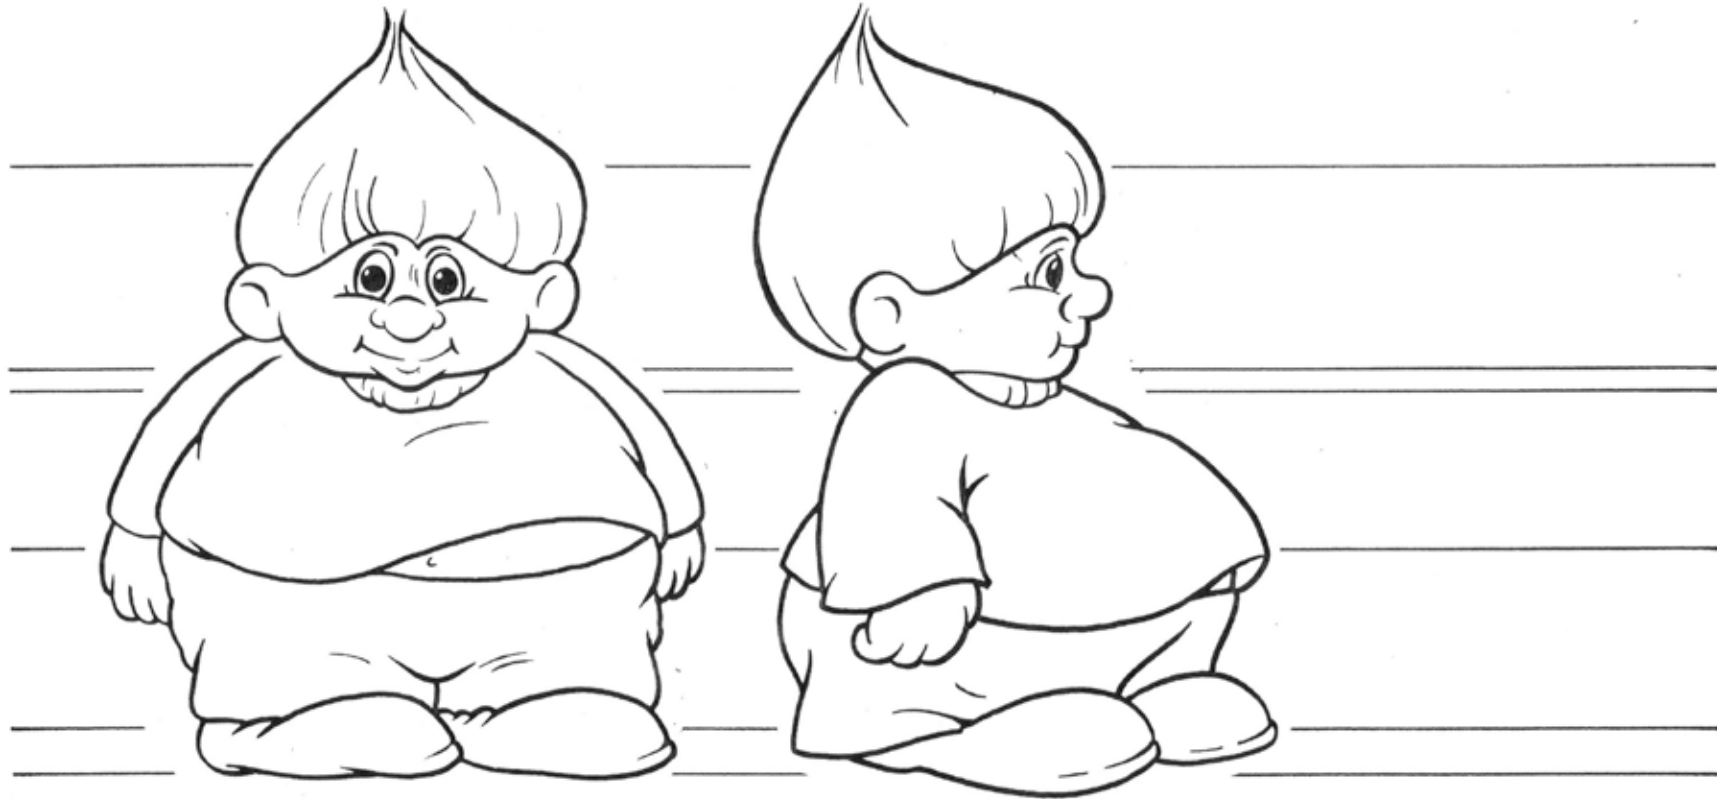

### THE TROLLIE TRIPLETES

These cute, loveable, fun loving little Trollies are unpredictable and full of mischief. Cherry, Tootsie and Jelly were hatched from the same acorn at exactly the same time. They love to play among the acorns and leaves on the forest floor. Blessed with beautiful voices, these sweet sounding gnomes sing backup, dance to the music and spread love throughout Trollieland. (Cherry and Jelly are female, Tootsie is a male.)

## ROLY POLY TROLLIE

Just one look and you know he loves to eat.  
He's full of fun like all Trollies but he's  
never far from his next meal. Roly Poly is as  
wide as he is high but he can move quickly  
when he has to. In between meals you'll find  
him sleeping in a warm cozy spot.

## SQUIGGLES TROLLIE

He's a mischievous, impulsive wiry artist and adventure seeker. Always drawing and doodling, he lets his crayons do the talking for him. He doesn't care much about his appearance as long as he can keep the other Trollies happy with his drawings.

## TROLLIE PAW PETS

All the Trollies love their pets - Puppy Troll Pet and Tiger Troll Pet. No wonder! They're the cutest little critters in Trollieland. They romp and play and get into all kinds of scrapes. Nothing serious though, cause it's all good fun in Trollieland.

## TRIXIE TROLLIE

She's in shape, she works out and is a real 90's kind of girl. She's Rock-N-Troll's girlfriend and they usually hang out together. Trixie is independent and can take care of herself most of the time. She's bright, bubbly and always has a kind word and friendly smile for all.

# Toady™

A super short, brainy, literate illiterate, Toady has a Napoleonic complex. He loves pushing everyone around, especially those Trollies bigger than he is. He grew up in the basement of a nuclear reactor and now lives in Black Moss Mountain. A science whiz, Toady is infatuated with chemistry, geometry and anything that resembles Techno/electronic machinery. He surrounds himself with the most clumsy, inept Trollies in all the land. His gang idolizes him and they believe he will someday take over and rule all of Trollieland.

## BUTCH AND BULLY

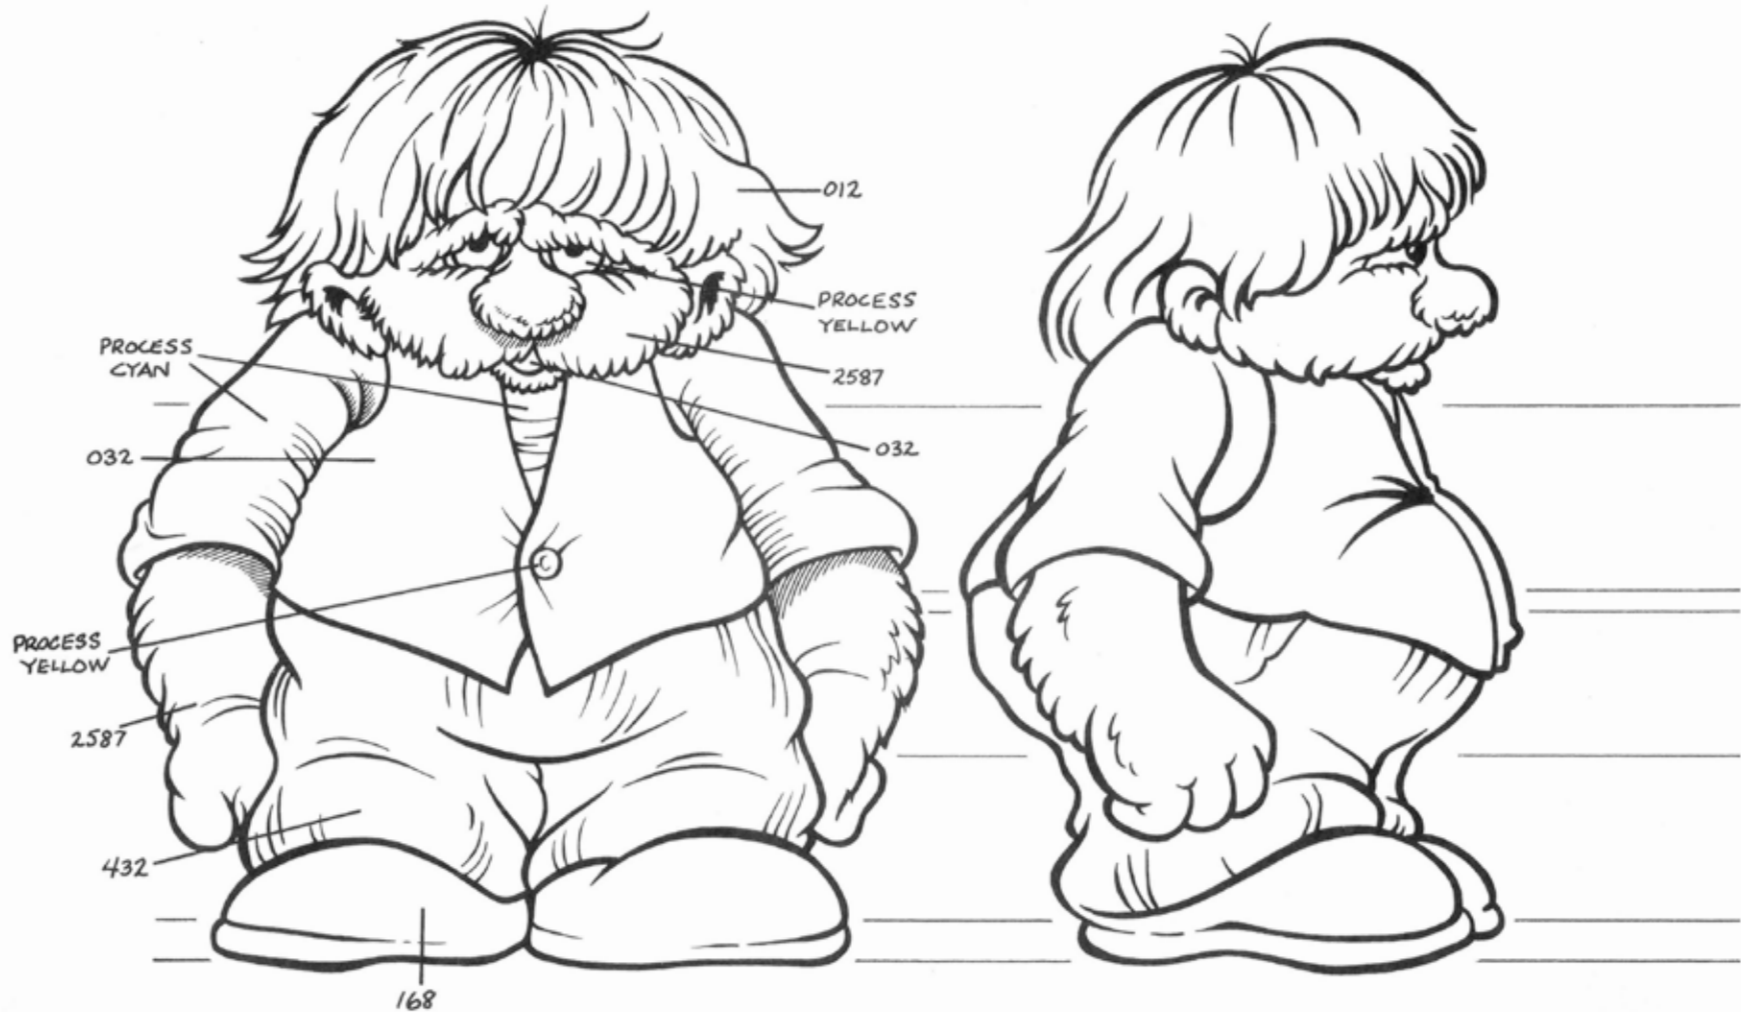

These twin brothers are the most overzealous, rambling vengeful, boisterous, impulsive bratty, trouble making mavericks in all of "Trollieland." The bad apples of Toady's eye, everything Butch and Bully do escalates into something so big it becomes unmanageable and explosive. Even Toady has trouble keeping these devilish imps in line. These brothers are so in tune with one another that when one twin speaks in a half sentence the other one completes it. Type "As" all the way!

# Gumph™

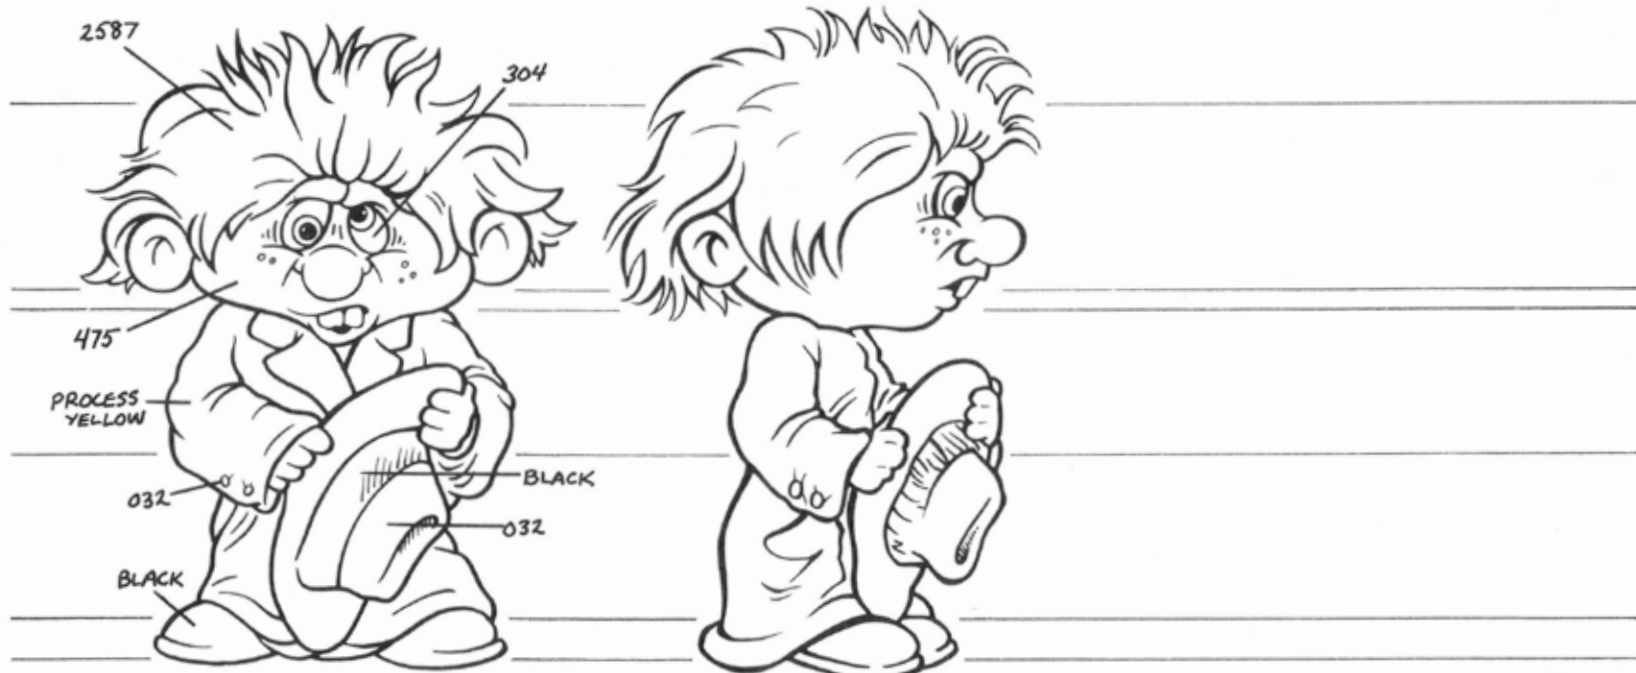

Gumph is the muscle behind the Toady gang — he's Toady's bodyguard and stooge. A creature of few words, Gumph seems to be "not too bright" but he's the only one in Toady's gang who has a heart and is not afraid to show it. He

blindly follows the commands of Toady, who in his eyes is the smartest Trollie that ever lived. Gumph is believed to be the long lost brother of Olaf (but no one really knows for sure).

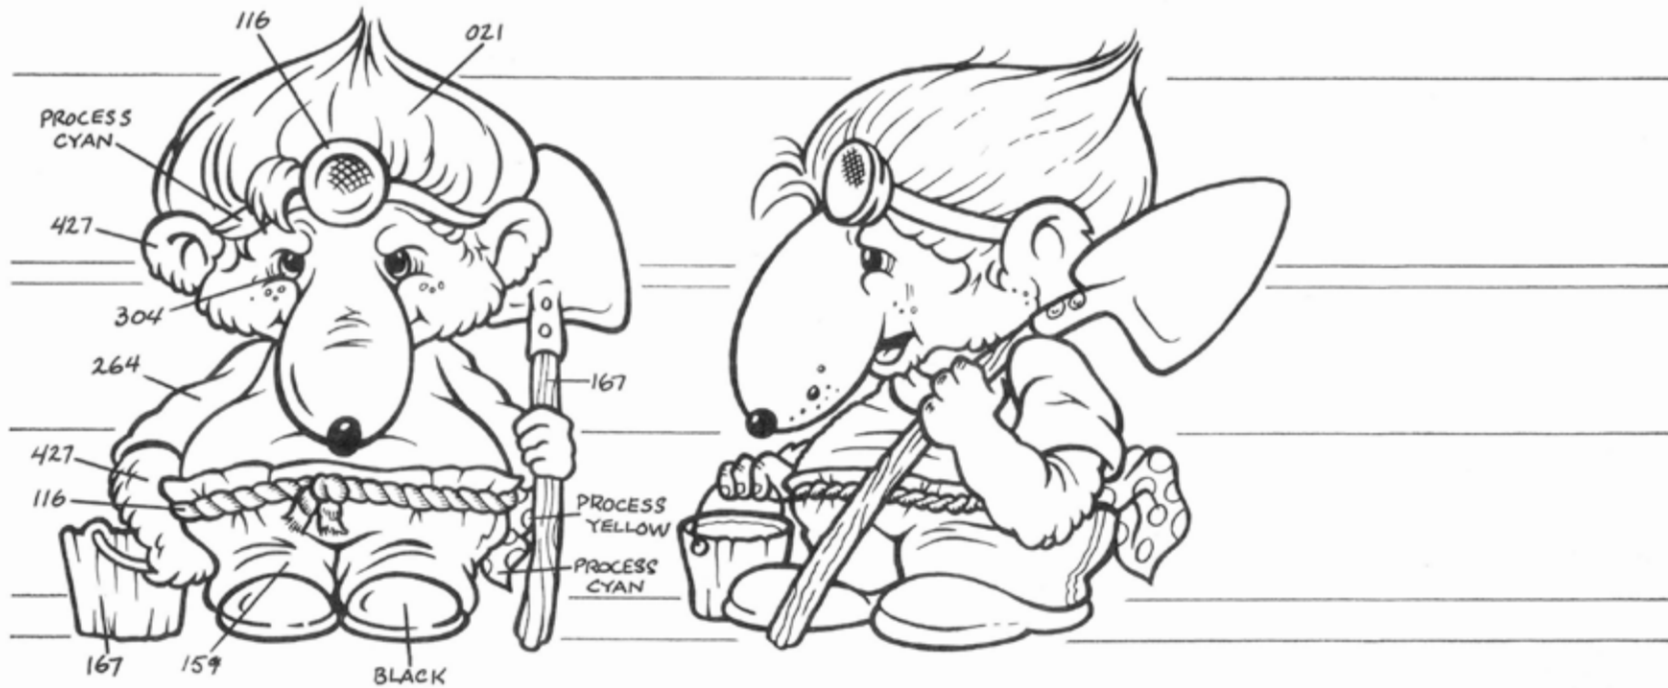

# Buck Trollie™

A sniffing, absent minded spy, Buck is fascinated with goofy gadgetry, but never knows how to use it. He always gets just enough information to get himself lost and in trouble. Buck strives to be accepted, but is viewed as the most bumbling, butterfingered, misinformed, incapable, accident prone Trollie in Toady's gang. Deep down he wishes he could be friends with the Trollies. Because of his warm heart Buck sometimes finds himself working for and against both sides.

# Moley Trollie™

A clan of tunnelers, they build the areas and dig the tunnels in evil Trollieland. Every Moley Trollie can be linked as a family member to every other Moley Trollie. Motivated solely by greed, they can be hired but never completely trusted. They can overrun a forest in seconds and steal all the fruit off a tree without ever being seen.

# Ned and Porky™

## NED AND PORKY

Ned is a loner whose only friend is his pet porcupine "Porky." He constantly whines, his personality is overwhelmed by a "doubting Thomas" skepticism and he is the ultimate pessimist. What Ned loves most is playing pranks and dirty tricks on the other Trollies.

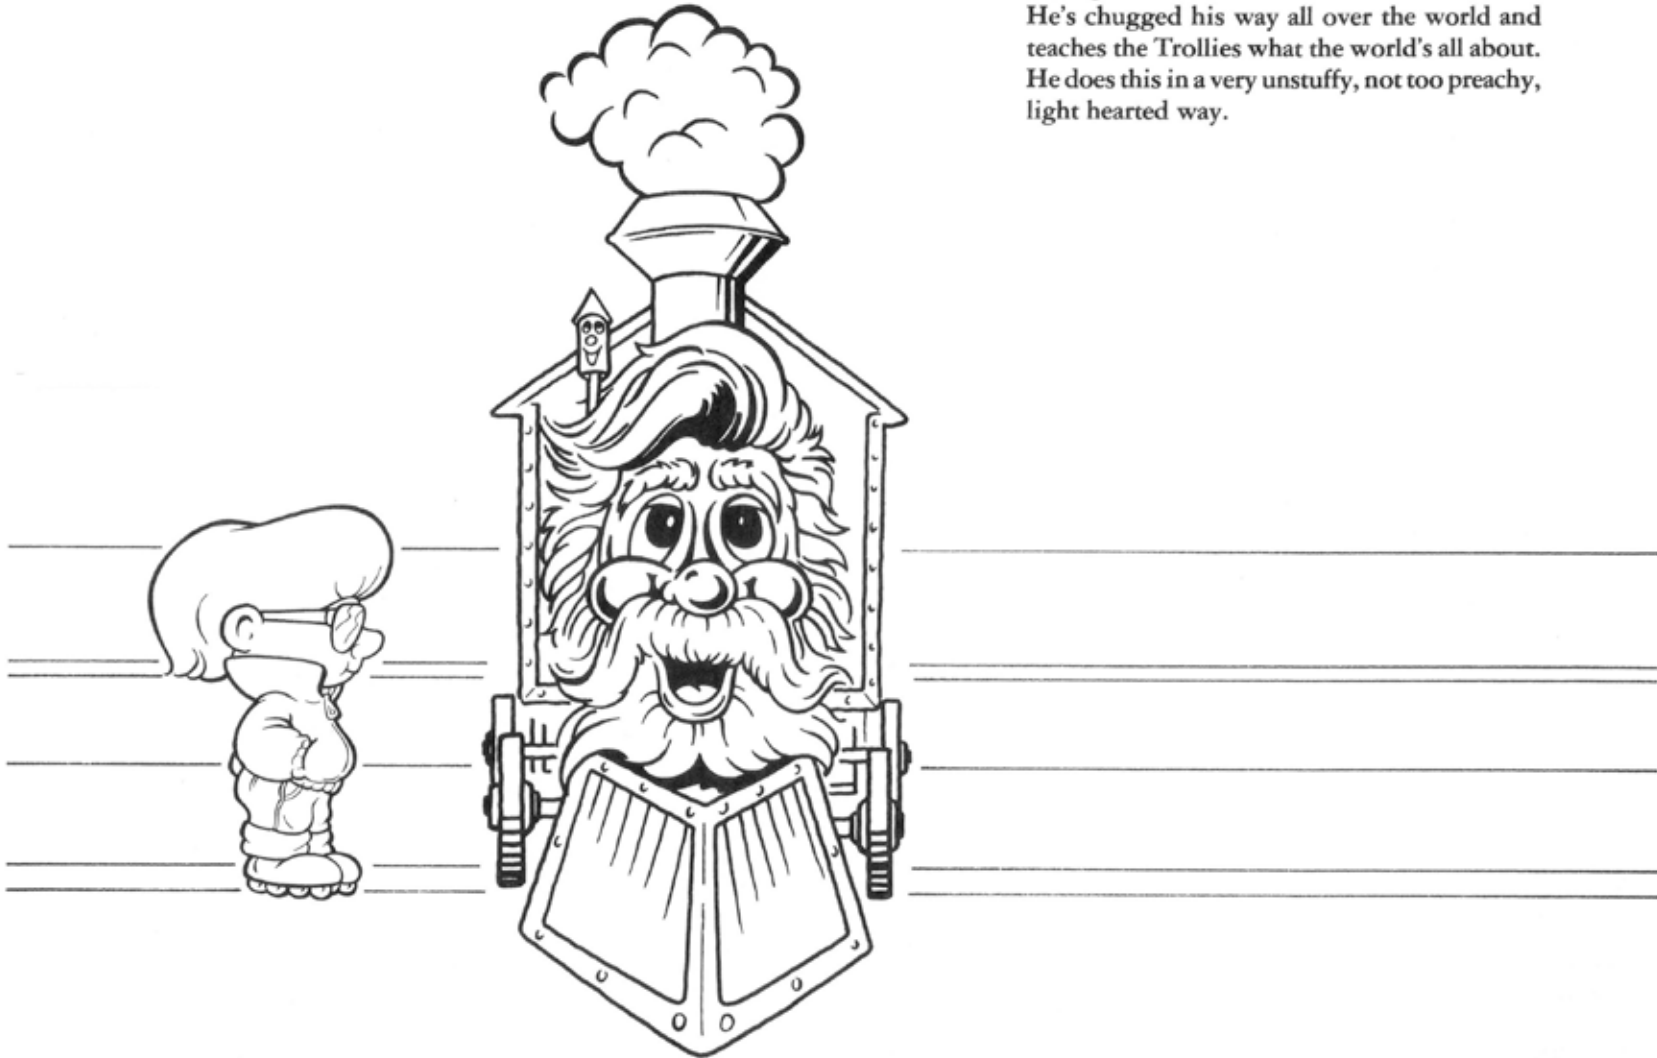

# Butch & Bully Trollie™

These twin brothers are the most overzealous, rambling vengeful, boisterous, impulsive bratty, trouble making mavericks in all of "Trollieland." The bad apples of Toady's eye, everything Butch and Bully do escalates into something so big it becomes unmanageable and explosive. Even Toady has trouble keeping these devilish imps in line. These brothers are so in tune with one another that when one twin speaks in a half sentence the other one completes it. Type "A's" all the way!

## Jelly Belly Trollie Express™

The Jellie Bellie Trollie Express is made of silver and gold. He is a wise old sage who runs on black licorice jelly beans. The Trollies occasionally meet up with the Jellie Bellie Trollie Express and take a magical, educational voyage throughout the forest and into other lands. He's chugged his way all over the world and teaches the Trollies what the world's all about. He does this in a very unstuffy, not too preachy, light hearted way.
